

The treemap visualization displays the results of the 2022 French legislative election for the 5th constituency of the Mayenne department. The chart is organized into a hierarchical structure, with the largest segments representing the winning party and its candidates, and smaller segments representing other parties and candidates. The colors used to distinguish the parties are: blue for the winning party, green for the second largest party, yellow for the third largest party, orange for the fourth largest party, red for the fifth largest party, and purple for the sixth largest party. The names of the candidates and their vote percentages are displayed within the segments. The chart is highly detailed, showing the distribution of votes across various candidates and their respective percentages.

Winning Party (Blue): The largest segment represents the winning party, with candidates including Edouard Chambon, Benoit Fontaine, Clement Gallet, and others. The vote percentages for these candidates range from approximately 10% to 30%.

Other Parties (Green, Yellow, Orange, Red, Purple): The other parties are represented by smaller segments, each with their own set of candidates and vote percentages. The vote percentages for these candidates range from approximately 1% to 10%.

The treemap provides a comprehensive overview of the election results, allowing for a detailed analysis of the distribution of votes across the various candidates and parties. The use of color and size effectively communicates the relative importance of each candidate and party in the election.
