

The diagram illustrates the flow of votes from 100 candidates to 10 winners. The candidates are grouped into four color-coded categories: red (top group), orange (second group), green (third group), and blue (fourth group). The flow is represented by lines of varying widths, with the width indicating the number of votes. The winners are listed on the right side of the diagram, with their total vote counts in parentheses. The candidates are listed on the left side, with their individual vote counts and group numbers in parentheses. The diagram is a detailed representation of the voting process, showing the distribution of votes across different groups and the resulting winners.
